

ALL NEW MAC MINI - THE SMALLEST HIGH DEFINITION EUROVIEW DVR AVAILABLE

RUNNING WINDOWS 7

The Mac Mini, incorporating our Euroview DVR technology, is fully compatible with the latest in High Definition IP camera solutions working in HDTV standards.

Mega-pixel IP Cameras offer video resolution several times higher than PAL/NTSC and are becoming more common, setting the picture quality standards in CCTV systems.

Our advanced client software CMS allows for unlimited remote access to video archives recorded on the Euroview and for live display up to (but not limited to) 4 cameras. We also have one of the best client applications on the market, VDR-C/CMS Mobile for mobile devices.

Key Features

- Up to 4 (but not limited to) IP Cameras
- Displaying and recording at 25 frames per second
- High image resolutions CIF, 2CIF, 4CIF, HDTV
- MPEG4 and H.264 compression
- Advanced motion detection
- PTZ dome control (mouse, keyboard or joystick)
- Advanced archive browser
- Watermark
- Recording and “live” playback
- Email and SMS notification
- Dynamic IP server (DNS)
- FREE Client application for Windows XP, Vista, Windows 7, Windows Mobile, Symbian OS, Blackberry, Android and iPhone

Highly efficient, built-in power supply

The power supply for Mac mini has been reduced from 110W to 85W and is now up to 90 per cent more efficient, which reduces energy bills and lessens the environmental impact. A built-in power supply means no plastic housing, less weight and less cable clutter which allows Mac mini to take up 20 per cent less space and fit into smaller packaging.

Advanced power management

The Mac mini uses less than 10 watts of power when idle — a 25 per cent reduction from the previous generation. That’s something no other desktop computer can do. And unlike a lot of Windows-based PC systems, Mac mini uses energy-efficient hardware components that work hand in hand with the operating system to conserve power.

Technical Specification

Size and Weight

Height:	1.4 inches (3.6 cm)
Width:	7.7 inches (19.7 cm)
Depth:	7.7 inches (19.7 cm)
Weight:	3.0 pounds (1.37 kg) ¹

Graphics and video support

- NVIDIA GeForce 320M graphics processor with 256MB of DDR3 SDRAM shared with main memory⁴
- Mini DisplayPort with support for up to 2560-by-1600 resolution
- HDMI port with support for up to 1920-by-1200 resolution
- DVI output using HDMI to DVI Adapter (included)
- VGA output using Mini DisplayPort to VGA Adapter (sold separately)
- Support for extended desktop and video mirroring across both ports

Peripheral Connections

- One FireWire 800 port (up to 800 Mbps)
- Four USB 2.0 ports (up to 480 Mbps)
- SD card slot

Communications

- AirPort Extreme 802.11n Wi-Fi wireless networking⁵; IEEE 802.11a/b/g compatible
- Bluetooth 2.1 + EDR (Enhanced Data Rate) wireless technology
- 10/100/1000BASE-T Ethernet (RJ-45) interface with support for jumbo frames
