

### Solid State Covert Surveillance DVR

Advantages:

- Low Power (7W)
- Compact, easily concealed
- Integrated video motion detection
- Alarm and/or scheduled recording option
- Remote interrogation via internet
- Simple installation
- All solid-state - no hard disk, no fans
- Totally silent operation

VIEWPROOF is a single channel DVR specially designed for covert surveillance. With no discs, fans or any moving parts, the unit is extremely compact, totally silent and easy to conceal. Integrated video motion detection and variable recording schedules allow optimisation of recording capacity. The surveillance video is recorded onto Compact Flash Cards.

This product is aimed at covert surveillance applications. It is based on the same solid-state DVR hardware as SPOTCHECK.

VIEWPROOF may record according to a pre-defined schedule and/or may be triggered by external alarm or it's built-in video motion detection. It's advantages include totally silent operation, compact size, portability and low power consumption (7W). A 1Mb/s network connection is an option for remote connectivity.

VIEWPROOF is ideal for rapid-deployment, temporary and cover video recording and may even be battery operated.

### SPECIFICATION

Video Input:	Composite video 1Vpp, BNC connection	Recording	Continuous with event marking (via external alarm input)
Video Output:	Composite video 1Vpp, BNC connection for Live/Playback	Power	12 to 24V DC external power supply Power consumption 7W Fanless cooling
Resolution	NTSC : 720 x 480 PAL: 720 x 576 (4CIF)	Other connections	1 alarm Input PS/2 Keyboard Port Optional RS232 Serial Link for PC
Record Rate	NTSC : adjustable 0.1 to 30 fps PAL: adjustable 0.1 to 25 fps	Dimensions	W : 110mm x D : 170mm x H : 33mm
Image Compression	JPEG 2000 Minimum frame file size : 2KB Maximum frame file size : 32KB	Environmental	Operating temperature : 5 deg F to 125 deg F (-15 deg C to 50 deg C)
Archiving / Data Transport	High speed Compact Flash Card, (at least 40x).
